

Rookie Coach Programming Camps

Hosted by the Division 1 State Champions, The Ruling Robot Falcons, these FIRST LEGO League (FLL) robotics programming camps are designed for new coaches with little or no programming experience, and veteran coaches who would like to learn more advanced techniques for the upcoming season. (Please let us know if there are specific learning objectives and we will strive to include them).

When: July 9th

Time: 9am - 3pm

What: Beginning programming

Who: Rookie coaches or coaches who like to learn more advanced programming and navigation techniques

Cost: \$36/day

Participants will need to bring:

- *EV3 robot (building instructions will be sent prior to workshop)
- *Laptop with the Mindstorms program installed
- *USB cable and charger
- *Lunch

To register or questions, please contact Amy Nichols at anichols@att.net.
