# Advanced Robotics Programming Camp

Hosted by the 2x VA-DC FLL State Champions, The Ruling Robot Falcons, a 7th year FIRST LEGO League robotics team, this exciting robotics camp is designed for kids who love robots and have participated in the First Lego League or already know the basic functions of Lego Mindstorms EV3 robots. We will be focusing on programming techniques that improve reliability and effectiveness in completing FLL missions.

When: August 20th-Aug. 23rd (Tue-Fri)
Time: 9:00am - 2:00pm
Where: Hilton Christian Church, 100 James River Dr., Newport News
Cost: $115
Who: 10 yrs -14 yrs. and have experience using EV3 Mindstorms sensors and specific blocks, including as Move, Wait, Switch, and Loop blocks. Participants should love learning how to apply math in a new way!

**All participants must bring their own laptop with Mindstorms EV3 program loaded. (Windows Vista or later or Mac OS 10.6 or later)

**Please have participant bring a lunch.

To register, please contact Amy Nichols at anichols@att.net. (For exceptions to age requirements or cost considerations, please contact to discuss individual situations)
