FAQ

What can my child learn at BeaverCamps?

We offer robotics design courses, as well as STEM courses with robotics applications such as computer science and physics. We also offer advanced and Olympiad math.

How many courses can my child take?

All of our courses are offered at different times throughout June and July, so you may choose as many as desired. Please check our website for more information.

Who teaches BeaverCamps?

Our courses are taught by members of FTC Team 13100. Our community-based team has competed and won multiple awards at state and regional levels.

What should I do if I have more questions?

You can contact us at ftcteam13100@gmail.com. We'd love to hear from you!
