

## FIRST LEGO League Falls Church Regional Tournament

On November 10 and 11, please come volunteer for the FIRST LEGO League ([www.firstlegoleague.org](http://www.firstlegoleague.org)) Regional Tournament at Mary Ellen Middle School in Falls Church, VA.

### **What is First LEGO League?**

FLL is a robotics competition for elementary and middle school students that challenges them to think critically and design around a given theme every year.

### **What is "Into Orbit"?**

This year's theme is "Into Orbit," focusing on human and social problems faced by humans during long duration space exploration.

### **What will I do as a Judge?**

Some of the judging roles are slightly more technical, some focus on a research presentation, and some purely focus on a teamwork challenge - and you'll always be with a team of judges!

FLL is an amazing opportunity to promote science and technology in a fun and encouraging environment. Your help and time are greatly appreciated! Please contact Scott at [fallschurchfll@gmail.com](mailto:fallschurchfll@gmail.com) if interested!
